tables of the MAYFLOWER Mill are shown in this photograph. On these tables are intercepted and "concentrated" all the minute particles of gold which, through being coated with sand, escape the attraction of the quicksilver on the copper plates. Any "float gold" that gets by these tables is caught on the "canvas plant" at the lower end of the mill, or in the settling tank, the concentrates from which bring about \$100 per ton. There is very little gold entering our mill that gets past us. To put it in sugar phrase, we have a high extraction. And there's a reason. We have a heavy stamp mill, one of the best in our district, and what is more, one of the most economical mills, because the entire outfit from the grindstone and bellows in the black-smith shop, to the Hoist and Mill Stamps are operated by water power exclusively. There has been a lot of Bullion ground out by the "Mayflower" Mill, but there is far greater and faster work immediately ahead of it. Acquire an ownership. Get an interest today. Your money invested in "Mayflower" Stock cannot help making more money for you. It's the right stock to associate with right now. If you are from Missouri, call or write for proofs. I would want them were I in your place. Its worth your while to investigate a little. Read our prospectus. At 25 cents our shares constitute the best buy in Honolulu. Today is your OPPORTUNITY. BUY "MAYFLOWER" STOCK. BUY IT NOW!

## DEMOCRATS' KICK

EDITOR STAR: Much space has been given to the explanation made by the Governor as to the bills introduced in Congress to amend the Organic Act, before the Chamber of Commerce for which he got a vote of thanks. It does not appear very plainly, however, whether the vote of thanks was for what he did explain, or for what he failed to explain. In his opening remarks, the governor says:

"The bill, as you know, is one to amend a number of the sections of the Organic Act and repeal one section." In truth and in fact, the bill not only repeals the one section abolishing the office of High Sheriff, but also repeals as follows: "Provided, that the parts of said laws (Revised Statutes) that are collected and set forth in sections fifty-eight hundred and eighteen to fifty-nine hundred and eight, inclusive, of the final report of the commission to revise and codify the laws of the United States, dated December fifteenth, nineteen hundred and six, shall not apply to Hawaii."

Right here by one section of his bill he seeks to repeal, so far as Hawaii is concerned, ninety-three sections of the laws of the United States, and seeks to repeal them all in a "blind pool" as above indicated and railroad it through Congress besides before the

people here could catch up with the game. His so-called explanation is very meager as to the above sweeping section and does not explain anything at all.

In addition to the above his bill, either in whole or in part, seeks to repeal twenty-two sections of the Revised laws of Hawaii. The latter being present land laws. Thus one hundred and fifteen sections of laws now in force are sought to be repealed hollus bolus. I doubt if one out of ten of Hawaiian citizens have the least conception of what is aimed at by the measure proposed by our Governor. The intent of party platforms in their declarations on the land question is far from what has been promoted by the bill before Congress.

Should efforts now being made to have action postponed prove successful Congress will have opportunity to vote on a more equitable measure with more precise information as to the conditions from which the electorate seeks relief than have yet been presented to that body.

Our sole desire in these activities is to secure the greatest good for the greatest number of our electorate.

For the Democratic Central Committee,

JOHN EMMELUTH, Secretary.

## PLEA OF THE QUEEN

WASHINGTON, January 14.—A

queen, deposed, it is true, stood before the House Committee on Claims today and pleaded for more money as recompense for the loss of her crown, her land and her revenues, which in past days had enabled her to live in regal splendor. Liliuokalani was at best a pathetic sight as she made her appeal, though she carried herself with proud mien. For years she had asked Congress for \$250,000 in payment for all that she had lost, but the plea has been made by deputy, and has been unheeded. Today she appeared in person accompanied by Princess Kahanalanaole, the wife of Prince Jonah Kūhiō Kalanianaʻole, and her cousin, the Congressional delegate from Hawaii.

The former queen was gowned in brown panne velvet, with a black hat surmounted by a large white egrette. Thrown over her shoulders was a loose black cloak. She wore tan gloves. Age has tinged the coal black hair

with silver threads and wrinkled the kindly brown face, but the former Queen of Hawaii was still queenly in her bearing and dignified in her manner.

Prince Kahanalanaole made a strong plea for the money. He detailed the history of the former Queen's reign, the circumstances attending the American occupation by bluejackets on March 17, 1893, and the use from that date of her crown lands and personal estates, valued now at \$10,000,000. Former Judge Frank Hatch of the Supreme Court of Hawaii also urged the committee to grant the claim, contending its fairness and legality. The committee reached no report on the bill.
